Summary

I am a passionate and skilled software developer with expertise in the MERN stack, React.js, API development, and Flutter framework for mobile apps. Proven ability to craft robust solutions for web and mobile platforms, with a focus on delivering high-quality code. Committed to innovation and continuous learning to meet evolving business needs.

Education

University of Gujrat, Gujrat
Bachelor of Computer Science (BSCS)   *Sep 2019 - Sep 2023*

Superior College, Sialkot
Intermediate in Pre-Engineering (F.Sc)   *Aug 2017 - Aug 2019*

Learning Zone School, Sialkot
Matriculation in Science (Matric)   *Aug 2015 - Aug 2017*

Skills

Programming Languages: HTML, CSS, JavaScript, C, C++, Java, Dart, Python

Technologies: React.js, React Native, Angular, Flutter, Node.js, Express, Firebase, Spring, Git

Frameworks: MERN Stack, MEAN Stack

Databases: MongoDB, MySQL

Other Skills: UI/UX Design, Responsive Design, Prompt Engineering, App Performance Optimization, Problem Solving and Debugging, App Deployment, WordPress

Experience

Eziline Solutions   **Location**
Software Developer - Internship   *Sep 2023 - Oct 2023*
- Designed intuitive user interfaces and addressed technical issues to enhance user experience.
- Collaborated closely with the team to identify and implement effective solutions.
- Implemented features and conducted comprehensive code reviews to ensure code quality.

The Tuitionist   **Location**
Software Developer - Internship   *Oct 2023 - Nov 2023*

- Developed e-commerce and social networking applications, prioritizing UI/UX enhancements for improved user experience.
- Collaborated with cross-functional teams to integrate new features and maintain high product quality.
- Stayed updated on industry trends and technologies, contributing to innovation and efficiency.
- Implemented features in the app, fixed bugs, and performed deployments.

Projects and Training

MERN STACK:

Description::
- Developed a full-stack application with a robust authentication system using JWT for secure user authentication. Implemented role-based authorization for user permissions management.
- Created RESTful API endpoints using Node.js and Express.js for CRUD operations, with MongoDB as the database for data storage and retrieval.
- Designed and implemented a responsive frontend using React.js, ensuring optimal functionality and performance through rigorous testing and debugging.
- Successfully deployed the application on hosting platforms for production use.

Technologies Used:: MERN stack, JWT, Node.js, Express.js, MongoDB, React.js.

React Native E - Rozgar:

Description::
- Integrated Firebase Authentication for secure user authentication and session management. Utilized Firebase Realtime Database for real-time storage and updating of attendance data.
- Developed intuitive user interfaces using React Native components, with features for generating attendance reports and exporting data in various formats.

Technologies Used:: React Native, Firebase Authentication, Firebase Realtime Database.

Mobile App & RESTful API Development:

Description::
- Created a news app with real-time data using RESTful APIs, featuring data parsing, rendering, and search functionality. Conducted thorough testing and debugging for stability.
- Implemented user management and authentication functionalities, including profile fetching and authentication using RESTful APIs. Conducted rigorous testing for stable integrations.
- Designed visually appealing user interfaces using Flutter, ensuring consistency and collaboration with UX/UI designers. Conducted usability testing for iterative improvements.
- Built robust authentication systems and integrated Firebase services seamlessly, ensuring efficient data storage and retrieval. Conducted thorough testing and debugging.

Technologies Used:: Flutter, RESTful API, Firebase, UI components.
